

Session Title: Choosing the Right Curriculum for Our Site

Session Description:

This informative virtual session is designed to support single site community-based leaders in selecting and aligning the most effective curriculum for their participants. Participants will explore how to match program goals, youth needs, and their chosen SEL outcomes with appropriate curriculum models.

Through guided discussion staff will identify shared priorities, challenges, and values while creating a foundation for decision-making. The session will also introduce practical criteria for evaluating curriculum options, including cultural relevance, engagement strategies, skill-building outcomes, and adaptability.

By the end of the session, participants will leave with greater clarity on how to choose or refine a curriculum that strengthens program impact, supports positive youth development, and aligns with broader SEL implementation goals.

Intended audience: This session is designed for Organizational Leaders who will be instrumental in the selection of the curriculum. The individual is selecting the curriculum for a specific location.

Session length: 90 min

Session availability: Twice per day AM between 9:30 and 12 and PM between 1 and 3

Number of sessions: 4 total

Logistical Considerations: 30 Participants maximum
